

HYMER Caravan Premiers at the Caravan Salon 2011

HYMER presents new Caravan Sporting Style

At the Caravan Salon in Dusseldorf, HYMER will be presenting the newly designed caravan models, HYMER Sporting Style, to the public for the first time. These are two middle class models with superior comfort features. The Sporting range is completed through two further, newly designed HYMER Sporting Jive models, which primarily cater to families. With their excellent price-performance ratio, all four models set new industry standards in the middle class market.

Bad Waldsee, August 2011

At the Caravan Salon in Düsseldorf, HYMER will be presenting the newly designed and especially comfortable Sporting Style caravan models. The Sporting range is completed through two further, newly designed Sporting Jive models, which are to cater more to families as “children-rooms” caravans.

HYMER Sporting Style

The new models, HYMER Sporting Style 465 and 485, were intensively designed for superior comfort. The HYMER Sporting Style 465 has a fixed bed in the front, washing facilities and a toilet room. For more privacy, this area can be completely separated from the rest of the caravan via a concertina sliding door and clever, swiveling shelves. The kitchen is located in the middle of the caravan, across from the entry door and a generous closet. In the rear, a roomy, circular seating arrangement provides cosy relaxation.

The HYMER Sporting Style 485 has the same, generous room design. However, with 5.65 meters body length and approximately 30 centimetres more length than the Style 465, its kitchen is serially equipped with an exclusive, 150-liter tall refrigerator.

Pressemitteilung

Both are similar in more than the upscale features. The entry has a newly designed door with window. The door design incorporates a waste container, which saves kitchen storage space. The entry is also secured with a mosquito net roller door to protect against insects.

The furniture has been completely newly designed for appearance and functionality. Analogous to the high-quality décor of the B-Class motorhome, HYMER has chosen Marasca select for the interior design. The fabric variations Zamora and Almendra can be selected. The cushion quality and curtains correspond with the excellent quality of HYMER Nova S. The fixed bed with micro-pocket innerspring mattress guarantees good sleep. For during the day, there is a high-quality bedspread. A Mini-Heki in the sleeping area and a Midi-Heki in the living room provide fresh air and light.

The models are elegant in appearance: built on a comfortable 1,600 kg AL-KO chassis with AKS 3004 safety coupling; sophisticated with a smooth aluminium shell design in Carrara white with typical style-design decals, decorative hubcaps and a drawbar cover. A large exterior locker door (100 x 40 cm), Big Foot steadies and a solid 45-liter freshwater tank top off the “outside package”. A 230 V hot air system and the water supply via Truma Therme complete the technical features.

The price is also extremely attractive. A HYMER Sporting Style 465, for example, only costs EUR 17,490 and the HYMER Sporting Style 485 starts at EUR18,490.

HYMER Sporting Jive

The HYMER Sporting range is completed through the family-friendly Sporting Jive models, offered in the designs 505 and 560.

The HYMER Sporting Jive 505 has a fixed bed and a shower in the front. This area can be “intimately” separated from the rest of the caravan space. In the rear of the 2.30 wide HYMER Jive 505, children will find an attractive bunk bed; a cosy dinette across from the kitchen and in the middle of the caravan completes the basic design.

Pressemitteilung

The basic design of the 2.50-meter wide HYMER Jive 560 has the same bed-, shower- and kitchen arrangement – but has a circular seating arrangement (rather than opposing), and an additional, large refrigerator in the kitchen.

The models shine on the outside, built on a 1,600 – 1,800 kg chassis with a smooth aluminium shell design in Carrara white with special decals, decorative hubcaps and a drawbar cover. A safety coupling, galvanized steadies, a large exterior locker door (100 x 40 cm) and a solid 45-liter freshwater tank top off the “outside package”. The entry door is additionally secured with a tambour screen door. A HYMER panoramic roof vent gives additional light and air.

The furnishing with Merano pear tree and the available fabric variations Husum, Lucca, Malmö or Palermo create a very cosy atmosphere. Adding to this is a 230 Volt hot air system and year-round water supply via Truma Therme. The fixed bed with its micro-pocket innerspring mattress guarantees a great night’s sleep. The upscale fabric furnishing with a bedspread and four pillows for the sleeping area, along with a matching tablecloth, create a pleasant look during the day. In the closet there is a practically integrated, swiveling holder for a TFT monitor with the corresponding cables.

The HYMER Sporting Jive 505 is offered starting at EUR 19,390 and the Sporting Jive 560 for EUR 20,990.

With their fantastic price-performance ratio, all four models will be attracting attention and further strengthening the market position of HYMER caravans.
