

“50 Years HYMER Motorhomes” – Special Models Tramp “Premium 50”

HYMER Tramp “Premium 50”, the exclusive anniversary model

In this year HYMER celebrates a milestone birthday: “50 Years HYMER Motorhomes”. To mark this occasion, there are four truly exceptional anniversary offers in the semi-integrated range: the HYMER Tramp “Premium 50” models. These feature an extensive, highly exclusive and spacious standard equipment package and are on offer at an attractive jubilee price starting at EUR 60,990.

Bad Waldsee, August 2011

HYMER celebrates “50 Years HYMER Motorhomes” and our present to our customers is a special edition that includes four highly exclusive anniversary models in the semi-integrated HYMER Tramp range. The HYMER Tramp “Premium 50” models thereby feature top of the range, ultra-spacious and exclusive standard equipment package at a very attractive jubilee price starting at EUR 60,990, which may vary for export models, due to differences in tax rates.

With state-of-the-art driving technology, all models are based on the new Fiat Ducato chassis and feature an environmentally friendly (Euro 5) and economical 2.3 litre Multijet motor with six-speed transmission and powerful 130 hp. Those who need more power can upgrade to the versions with 148 or 177 hp (automatic on request).

Particular comfort in the driver’s cabin is provided by the standard warm air flow from the B-columns and from the platforms for driver and front passenger seats, which are not only adjustable in height and inclination, but are optionally additionally outfitted with armrests on both sides. Also included in the exemplary standard equipment are driver’s and passenger airbags, cruise control, a motor-driven air conditioning system with pollen filter, electric window and exterior mirror operation, and central locking, a concertina darkening system and a panorama roof above the driver’s cab. The exteriors of these models shine with an eye-catching, elegant anthracite metallic finish.

The layouts of the “Premium 50” line for the HYMER Tramp 578 are outfitted with twin beds, the Tramp 594 with a rear double bed and the Tramp 598 with a queen bed and a bathroom with separate shower, and the Tramp 678 with twin beds and bathroom.

An open living room with couch/seating ensemble contributes to the superior living comfort of the anniversary models. The comfortable seating group, with its cosy upholstered lounge elements and table that can be shifted lengthwise and crosswise, is an invitation to relax. There are two integrated three-point safety belts installed in the L-shaped seating group area. The platform of the seating group has warm air heating. The newly developed furniture and upholstery design will win you over with subdued colours, textile-leather-fabric combination and cream-coloured applications.

The living room door features a window with a folding darkening system. There is also an additional fly screen door. The insulated glass HYMER panoramic roof vent with LED lighting and the microfiber upholstery on the side and rear walls of the bedrooms provide a pleasant climate and atmosphere on the interior. In the sleeping area, the models with twin beds also have a folding ladder (at no extra charge) and additional cushions, which can be converted into a large reclining area. Overall, the sleeping area, with its spacious concept and high-quality furnishings – and optionally available 7-zone cold foam mattresses – conveys luxury.

This also holds true for the bathrooms. In addition to the classically designed, spacious bathrooms according to the vehicle model, the comfort bathrooms feature shower basins with two drains and optional wooden grating. The glazed glass roof ventilator with integrated folding darkening system and insect screens enable remarkable standing headroom in the bath and shower areas. Cosy furniture design and numerous practical shelves and storage spaces facilitate the optimal concept.

The kitchen also provides fully functional, household-like comfort with a deep sink, 3-burner hob and lots of storage space. It features a decor countertop in an exclusive white mineralised finish and side walls in stainless steel design. The convenient 150-litre refrigerator with freezer compartment can be luxuriously upgraded with an optional TEC tower that includes a combination refrigerator-freezer, oven and grill.

Even the storage space options meet high standards. Select models feature spacious garages and storage space in closets or underneath seating and bed compartments with ample room for plenty of luggage, clothing and other equipment.

Optional special equipment for the special models includes air-heated thermal flooring and a hail-safe GRP roof design.
