

Hymer business incentive programme 2009

Special offer caravan model: HymerNova 465 Highline

Bad Waldsee, Germany, 16 January 2009

Kicking off the year 2009, Hymer presents an exclusive special model – the HymerNova 465 HighLine - giving potential caravan clientele a price advantage of Euro 2,795: a highly attractive offer.

The HymerNova 465 ranks among the industry's most successful caravan models and the HighLine version comes with a package of outstanding features providing an unbeatable price advantage.

The caravan with an updated payload of 1,500 kg gleams in a champagne metallic colour design. In addition to attractive wheel trims and AL-KO Big Foot corner steady attachments, the HymerNova 465 HighLine has a three-section front window offering a panoramic view and flooding the caravan interior with light.

The interior is truly stunning: a special HighLine style collection creates an exclusive ambience enhanced by the Toscana cherry wood furniture finish and complemented by leather-look flaps. The granite-look countertop, the Venezia mix-and-match fabrics and leather-design pockets put the finishing touches to the exclusive décor.

Added natural light is brought into the caravan not only by the panoramic front window, but also by the Hymer panoramic roof vent and the entrance door with window and mosquito net roll-up screen. Further comfort features are the extractor fan in the kitchen and an innerspring mattress with bedspread in the sleeping area.

The radio package with DVD player, TFT cabling and a 17-inch TFT flat screen delivers audio-visual enjoyment.

According to the manufacturer's recommended retail price, the HymerNova 465 HighLine special offer model - including all the extra modules – costs only Euro 22,690 (a saving of Euro 2,795).

Go to www.hymer.com for further details of the Hymer special offer models with all their standard features, Hymer in general and the current product range.
