

Hymer business incentive programme 2009

Fully equipped special offer model: HymerVan SilverLine

Bad Waldsee, Germany, 16 January 2009

As the year 2009 gets off to a start, Hymer is presenting some special motorhome models to give fresh impetus to the market and to offer customers very attractive prices.

For instance, the customer saves more than Euro 8,000 on the special HymerVan Silverline 512 and 562 models based on an especially composed package of features.

Both models are available only in a limited edition with exclusive Cristal Silver paintwork, including the spoiler. Both vehicles have a Ford Transit chassis with 2.2 TDCI engine delivering 110 hp, optionally 140 hp. While the 5.98-metre-long 512 model has a chassis with mid-wheelbase, the 6.58-metre-long 562 model has a long wheelbase.

In addition to power windows, power-adjustable outside mirrors and the rotary front passenger seat covered in the living-area fabric just like the driver seat, the cab has air conditioning, central locking with remote control, a concertina darkening system and dashboard with wood finish trims.

The kitchen appointments in the special package include a three-burner hob and a larger 89-litre refrigerator with interior light.

The HymerVan 512 SilverLine has a large bed across the rear while the HymerVan 562 SilverLine has twin beds at the rear. For both rear-bed versions, the clothes cupboards are tucked away under the beds to save space. The dining/living area can be converted to create an additional berth.

The dining table has an extension leaf as part of the special package and the living-area door has a mosquito net roll-up screen. In addition, there is an awning light including rain shield.

Putting the finishing touches to the SilverLine package is an audio system 6000 with CD player (including steering wheel remote control) and radio/TV pre-installation including TFT mount, loudspeakers and antenna.

According to the manufacturer's recommended retail price, the HymerVan 512 SilverLine - including all the extra modules – costs only Euro 43,990 (a saving of Euro 8,035) and the HymerVan 562 Silverline only Euro 45,690 (a saving of Euro 8,095).
