

ERIBA Touring

The cult caravan for seasoned travellers and individualists.

ERIBA

ERIBA Touring highlights

A sense of well-being is all part of the package.

Further highlights: pull-out entry step, insulated gas bottle compartment, all upholstery fabrics with HYMER stain protection, external table attachment strip, folding kitchen worktop extension

No snaking

The anti-snake stabiliser (AKS 3004) with automatic overrun and automatic reversing mechanism corrects snaking as soon as it occurs, thus increasing the safety margin.

The elegant way to save fuel

ERIBA caravans are models of efficiency due to an aerodynamically shaped front with rounded edges. The body shape – unique in caravan construction – boasts a timeless elegance and comes with numerous benefits: lower air resistance for better fuel economy, improved driving safety and optimal road-holding. With this compact touring pro, you can now holiday with greater safety, economy and – not least – style.

Everything well stowed

The all-round overhead storage cupboards with their elegant doors are big enough to house all your travelling utensils and they all stay closed without rattling.

Roof awning with LED

The extremely lightweight articulated awning with integrated LED light fits compactly to the curve of the roof without making the caravan any wider.

Space for bicycles

The optional bicycle rack accommodates two bikes securely on the drawbar, and folds back easily to allow access to the front storage area.

More than just a door

The entrance door becomes a practical furniture item with its stowage pockets and the integrated rubbish bin. The optional insect screen roller blind keeps unwanted guests away.

Living and kitchen comfort

Inspiring interior design on wheels.

Compact yet amazingly spacious

The ERIBA Touring with its lifting roof boasts a standing height of 1.95 metres. The interior has a warm and welcoming feel, with cleverly designed furnishings in the bright Trentino Pear Wood finish.

More space for preparation

The side flap serves as worktop extension and combines with the sink cover to make a large work surface.

Organisation is everything

The drawer with cutlery insert keeps things tidy and the sink cover with integrated chopping board provides a larger work surface. Even larger pans will fit under the high-spout tap.

Stowage space galore

All fixed beds open up wide and high-quality spring struts keep them safely in position when open. The enormous bed boxes are easily accessible – either from inside the caravan or from the outside through the large exterior locker door on the awning side (optional extra dependent on model).

Sleeping and bathroom comfort

Charming interior concepts.

Maximum sleeping comfort

Travelling doesn't have to mean compromising on sleeping comfort: in the ERIBA Touring, restful slumbers are guaranteed thanks to cold foam mattresses with soft drill covers.

Everything in its place

The bathroom is equipped with a height-adjustable mirror, a shelf with tensioning straps to store utensils, a towel rail and a Thetford bench toilet.

Additional bed and storage space

All seating groups can be transformed as quick as a flash into a comfortable bed. The spacious seat boxes provide plenty of easily accessible stowage space.

Technical know-how guaranteed

ERIBA Touring technology.

From the principles of aircraft construction

For almost 60 years, the unique design principle has been based on the legendary tubular steel frame, originating in aircraft construction. This lightweight, self-supporting and corrosion-free design is aerodynamically modelled and is particularly robust, ensuring a long life and excellent towing characteristics. The outer skin is stove-enamelled aluminium and the rising roof shell is made from GRP.

Highlights

- AERO styling with steel tubular frame construction
- Low overall height (on the road 226 cm)
- Chassis with independent suspension and shock absorbers
- AKS anti-sway coupling with automatic reverse
- Outstanding trailing properties
- Rising roof with 26 mm sandwich insulation and two pantograph hinges
- Standing height in the rising roof is 1.95 metres
- High lighting output, energy-saving LED technology

A range of options and premium ERIBA brand values

* = optional extra

We strive to set ever new standards in the production of our ERIBA caravans. ERIBA caravans come with an extensive range of safety equipment as standard. Superior fittings, a stylish interior design and an ideal interior climate are a hallmark of all our models.

That way our customers can rest assured that they are buying a vehicle with high value retention. In addition, they can access a comprehensive range of services at all times.

ERIBA is now GT (*)

The GT package is a visual and functional upgrade for your ERIBA Caravan: on the one hand, the alloy wheels, the smooth side panels, nose and rear in Crystal Silver and the stone protection plate. There are also three additional reading lights in the front and rear, an exterior storage compartment locker on the right, a waste bin integrated in the door, a roller door mosquito net, chopping board sink cover and two utility pockets.

Wheel on (*)

The rear underfloor spare wheel holder ensures that you always have a full-size spare wheel with you in an emergency – without wasting any precious storage space.

Optimal loading (*)

The AL-KO Premium jockey wheel with its integrated nose load gauge offers you the certainty that you always have the optimum towbar weight when travelling.

Safe braking

The AAA Premium Brake is now fitted in all ERIBA caravans as standard. This automatic brake adjustment facility shortens the braking distance substantially.

Maximum safety

Whatever your destination, driving safety and comfort are paramount with ERIBA.

Value retention

An investment that pays for itself: our vehicles still fetch high resale prices even after many years.

Top service

Also good to know: we'll still be there for you post-sale, thanks to our dedicated European-wide service and extensive dealer network.

Note

This brochure describes the series status at the time of publication. Despite careful checking of the contents, misprints cannot be ruled out. We reserve the right to modify the equipment or make product improvements during the course of the model year. Before signing a sales contract, please ask one of our authorised HYMER/ERIBA dealers about the current product and series status.

Some vehicles are shown with optional extras which are quoted in the current price list and available at extra cost. The decoration shown is not supplied by HYMER/ERIBA. The details of scope of delivery, appearance, performance, dimensions and weights are valid at the time of going to press – deviations within the factory tolerance limits (max +/- 5%) are possible and permissible.

These data comply with European homologation regulations, which may change up to the time of vehicle purchase or delivery. Your HYMER/ERIBA dealer will gladly provide you with information on any changes and the standard scope of delivery.
