Now with four-wheel drive: the HYMERCAR Grand Canyon S and the HYMER ML-T on the new Mercedes-Benz Sprinter

Bad Waldsee, 24 August 2018 – Whether you're taking a holiday off the beaten track or going on a camping trip in winter along snow-covered roads – motorhomes and camper vans with four-wheel drive are hugely popular. That's why Hymer GmbH & Co. KG is presenting the new HYMERCAR Grand Canyon S and HYMER ML-T as off-road show cars at Caravan Salon 2018. The first models made by the leisure vehicle manufacturer from Bad Waldsee based on the new Mercedes-Benz Sprinter and featuring the optional drive system are available to order now.

"We're incredibly proud that we're already able to base our popular HYMERCAR Grand Canyon S and HYMER ML-T models on the new Mercedes-Benz Sprinter with the proven rear-wheel drive system as standard. For customers looking for a bit of adventure on their holidays, the four-wheel drive option is the perfect choice. The four-wheel drive system and all the extra features packed into the new Mercedes-Benz Sprinter make easy work of rough terrain. Both of the vehicles are also available to order right now," says Christian Bauer, Managing Director of Hymer GmbH & Co. KG

Hymer GmbH & Co. KG and Mercedes-Benz have been bound by a strong partnership for many years. This has resulted in the popular HYMERCAR Grand Canyon S and HYMER ML-T, amongst other things. Flexibility, adventure and comfort is what really sets these vehicles apart, and the four-wheel drive models have been impressing customers for many years already. When the new Sprinter was launched, it was only logical that both the Grand Canyon S and the ML-T would be based on the new vehicle. The company from Bad Waldsee will be unveiling these vehicles to the public at Caravan Salon 2018, making holidays off the beaten track a possibility from summer 2019 onwards thanks to the four-wheel drive option. The new combination of 7G-Tronic automatic transmission and optional four-wheel drive means that the new HYMERCAR and semi-integrated HYMER vehicles will be able to cope perfectly with any road and weather conditions. An especially high level of safety and a smooth drive are ensured by the latest generation's increased traction, improved driving stability and ADAPTIVE ESP®. Numerous extra driver assistance systems such as Crosswind Assist, Active Brake Assist and DISTRONIC Active Distance Assist also play their part in this. Three proven engine options with 143 hp, 163 hp (4-cylinder) or 190 hp in the case of the 6-cylinder, 3-litre engine ensure you have all the power you need.

PRESS RELEASE

Visually, both models are perfectly in tune with the design of the new Mercedes-Benz Sprinter. As a result, they have a particularly streamlined and modern exterior. When it comes to the interior, the vehicles are notable for their new cockpit featuring abundant storage spaces, as well as the sophisticated and luxurious living and sleeping areas you would expect from HYMER.

The new HYMERCAR Grand Canyon S and the new HYMER ML-T are available now. The models featuring four-wheel drive will be available from dealers from summer 2019 onwards.
