

**EHYMER**

# Hymermobil B-Class MasterLine – the HYMER among motorhomes.

So unique that it redefines an entire genre!

Through over 60 years of hard work, we have not only ensured that our name is a guarantee of quality and technical know-how, but also a synonym for the motorhome itself. Just as Mount Everest is the “mountain of mountains” and the Eiffel Tower the “tower of towers”, the Hymermobil defines the entire category of integrated motorhomes.

With the new Hymermobil B-Class MasterLine, we have created a vehicle that truly lives up to this claim – for the journey of a lifetime in the HYMER among motorhomes.

## Characteristics

---

Weight: 3.500 - 4.500 kg

---

Length: 7,89 m

---

Width: 2,35 m

---

Height: 2,96 m

---

Berths: 4 - 5

---

## Highlights

---

Innovative and unique SLC chassis with level upper floor for greater driving stability and comfort thanks to independent wheel suspension

---

3D front end hood for sporty performance and visually perfect integration of the track width

---

36-cm-high multi-purpose double floor with

through-loading function, including level living area floor – for extra storage space, improved insulation and total winterproofing as standard

---

180 l fresh water and 150 l waste water

---

Keyless start with automatic ignition key detection

---

Mercedes-Benz Sprinter chassis cowl

---

## Chassis and exterior design

- Numerous **Mercedes-Benz Sprinter driver assistance systems** ensure the highest levels of safety and perfect handling.
- As a new design feature, the improved front section with a 3D appearance is characterised by the **HYMER Iconic Signature**, which gives the vehicle a particularly sporty look.
- The **ultra-panoramic windscreen** guarantees you'll have a perfect view of your surroundings and traffic, as well as the best possible view outside. The visor-like appearance provides the vehicle with a particularly elegant and stylish look.
- Specially developed **HYMER LED headlights** with a daytime running light as well as the **LED fog lights** with an integrated cornering light illuminate the roads perfectly, even in difficult visibility conditions.
- **Wide-angle wing mirrors** provide excellent rear visibility without restricting your field of vision.

## Perfect body shell design

- The 100% wood-free **PUAL technology** boasts outstanding insulation values, is completely winter-proof and withstands the highest stresses.
- With a payload of up to 450 kg, the **self-supporting GRP garage casing** offers a generous amount of storage space of 3,800 l. The integrated heating outlet ensures that your luggage is protected from the cold, even in winter.
- There is a large **through-loading compartment** inside **the double floor of the SLC chassis**. In addition to the heating system, the double floor also houses the 180 l fresh water and 150 l waste water tanks. It protects the installations from frost, improves sound insulation and ensures that the living area floor is level.
- The **“Perfect Close” technology** with splash water seals ensures reliable protection in winter as well as increased durability.
- The **new**, 65 cm-wide **main entry door** - with 2-point locking, a window and large rubbish bin as standard - is perfectly integrated into the interior design of the vehicle.
- The double-skin and hail-resistant **GRP rear** is equipped with the HYMER multifunctional rear light featuring LED hybrid technology.

## Interior comfort

### **Perfect interior design**

The Hymermobil B-Class MasterLine provides an **even greater feeling of space thanks to the larger seating area**. For a **clear line of sight**, the **headrests for the bench seat** can be stowed inside the seat itself. There is additional storage space in a **drawer in the seating area**. The **Duo-Core upholstery** provides luxurious comfort thanks to the **LoungeComfort system**.

### **A home-from-home kitchen**

The **solid surface worktop** in the kitchen will make you feel like you never left home. The optional **hybrid cooker** combines practical gas and induction hobs. **Bottles of oil fit perfectly into the larder unit** or bottom drawer. **Extra-wide kitchen drawers with flexible partitions** can hold loads of up to 15 kg and provide amply space for all of your utensils. Thanks to its **double hinge**, the **refrigerator** can be accessed both from the kitchen and the seating/entrance area - perfect. The **optional oven** is housed in the same unit.

### **Sleep comfortably**

The **90 cm-wide and over 2 m-long twin beds** with multi-zone cold foam mattresses in the Hymermobil B-Class 780 MasterLine guarantee you will sleep in supreme comfort. They **can be used as single beds or as a giant sleeping oasis**.

### **A home-from-home shower**

With a **headroom of up to 1.94 m and real glass shower doors**, you will almost feel like you're at home in the shower.

Whether culture, art or cuisine – the Hymermobil B-Class MasterLine makes the world your oyster and every city trip a pleasure. After all, having your own kitchen, living room and bed with you on the road is amazingly comfortable and transforms every trip into a stylish experience.

Designed for anyone seeking a challenge and with a passion for self-catering travel in remote regions far from civilization – the Hymermobil B-Class MasterLine is simply the perfect way to get away from it all.

True beauty is at home everywhere. With the Hymermobil B-Class MasterLine you always have your living room with you – so you can always enjoy the most beautiful views in a stylish setting in which you feel truly comfortable.

Inside, the Hymermobil B-Class MasterLine impresses with its harmonious interior design. Thanks to our new lighting concept, the interior looks roomier and more spacious than ever.

The bedroom of the Hymermobil B-Class MasterLine 780 offers two extremely comfortable twin beds with a length of more than 2 m and a width of 89 cm, which can be converted into a large relaxation area, while the height-adjustable queen-size bed with dimensions of 200 by 156 cm is the highlight in the 790 layout -- for a blissful sleep, night after night.

With thoughtful features such as the new generation of double-hinged refrigerators, large work surface and a hybrid cooker that combines gas and induction hobs, the kitchen in the new B-Class MasterLine makes preparing your meal as easy as in your kitchen at home. The comfort L-shaped seating area with lounge cushions is also bigger and comfier than ever before.

# Impressions of the Hymermobil B-Class MasterLine

**Exterior views & storage space**

**Living area**

**Sleeping area**

**Kitchen**

**Bathroom**

**Exterior views & storage space**

The elegantly curved ultra-panoramic windscreen meets the HYMER Iconic Signature in the front cladding - the result is a redesigned bodywork that attracts plenty of attention. What's more, the striking front design with chrome trim makes the Hymermobil B-Class MasterLine look every bit as sporty as it does exclusive.

The modern front design with the HYMER Iconic Signature gives the B-Class MasterLine its exceptionally dynamic appearance. The front end hood blends seamlessly into the side walls. In addition, the integrated ultra-panoramic windscreen ensures you always have the best possible view.

The high side skirts cleverly conceal all lower attachment parts and create an elegantly minimalist appearance.

HYMER multi-layer technology consists of an aluminium PUAL sandwich and provides optimum hail protection in combination with the standard GRP roof coating. Leak-tightness is also guaranteed for many years thanks to the additional aluminium layer. The robust, continuous GRP underbody provides protection from de-icing salt, dirt and chips caused by stones.

The new GRP rear features a double-skin design, is hail-resistant and looks simply stunning. The beautifully shaped rear portion of the Hymermobil B-Class MasterLine is characterised by the reengineered rear light moulding with self-supporting garage casing in a sporty diffuser design.

Anyone who wants to transport long and bulky items will find the specially developed HYMER SLC chassis with extra large through-loading compartment to be particularly helpful.

On-site mobility is guaranteed thanks to the large, heavy-duty garage, which makes transporting bicycles and even scooters up to 450 kg a breeze.

## Living area

With lounge cushions and the height-adjustable, tilting Ergoflex pilot seats, the comfort L-shaped seating area is also bigger and comfier than ever. Especially comfortable seating is ensured thanks to the Duo-Core upholstery concept with LoungeComfort system. The headrests can be easily stowed in an extra compartment under the seating area when not in use. For even more comfort, the seating area includes a double USB port as standard.

Outstanding comfort from the very first moment – particularly in the generous seating area, which invites you to linger and relax. The new, 65 cm-wide entrance door with optional functions such as a closing aid, RFID access and central locking system opens up a new world of luxury travel.

The B-Class MasterLine boasts a unique design. Inside, the space is not partitioned in any way, so the Hymermobil B-Class MasterLine impresses with its harmonious interior design. Thanks to our new lighting concept, the interior looks roomier and more spacious than ever.

The state-of-the-art Mercedes-Benz Sprinter chassis cowl with up to 177 hp delivers perfect performance. Increased safety and driving comfort are also ensured thanks to exhaustively tried-and-tested Mercedes-Benz driver assistance systems.

In the seating area, additional shelf and storage space is provided by the new sideboard.

## Sleeping area

The bedroom of the Hymermobil B-Class MasterLine 780 offers two extremely comfortable twin beds with a length of more than 2 m and a width of 90 cm, which can be converted into a large relaxation area, while the height-adjustable queen-size bed with dimensions of 200 by 156 cm is the highlight in the 790 layout – for a blissful sleep, night after night.

Whether you opt for twin beds with a width of 90 cm and a length of over 2 m, or the version where the beds have been converted into a sleeping oasis measuring over 2 x 2 m, every berth in the Hymermobil B-Class MasterLine 780 is incredibly comfortable.

With dimensions of 199 x 145 cm and the standard comfort sleeping system with a sprung mattress and multi-zone cold foam mattress, the fold-down bed in the Hymermobil B-Class MasterLine ensures particularly restful sleep.

## Kitchen

With thoughtful features such as the new generation of double-hinged refrigerators, a large work surface and a hybrid cooker that combines gas and induction hobs, preparing your meal is as easy as in your kitchen at home. Bottles of oil fit perfectly into the larder unit or bottom drawer, and the extra-wide drawers with flexible partitions provide ample space for all of your utensils.

## Bathroom

The unique travel experience continues in the bathroom – a spacious bathroom with a separate shower ensures you have plenty of elbow room and complete privacy.

Plenty of daylight, large mirrors, a premium washbasin with storage space, a towel rail and clothes hooks ensure that you always feel at home in the bathroom of the Hymermobil B-Class MasterLine.

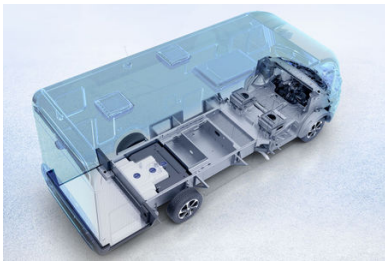

The large, separate shower cubicle has real glass shower doors for that home-from-home feeling. With a headroom of up to 1.94 m, even tall travellers will be happy to use it.

Please note, that for the UK the offered models and equipment components can differ from the descriptions and information given here. The illustrations are for example purposes only, and may feature optional extras, accessories and vehicle decorations which are not supplied as standard. Optional extras are included in the current price list and available at the extra cost indicated. We reserve the right to modify the equipment or make product improvements not shown in the photos during the lifecycle of the model ranges. We cannot accept any liability for content errors and modifications.

# HYMER B-Class MasterLine - Layouts and technical data

# Standard equipment

HYMER SLC chassis

The innovative SLC chassis (Super Light Chassis) features an extra-high, heated and insulated double floor. As a result, the vehicle has even more storage space and a level living area floor. Thanks to its seamlessly level underbody, the SLC chassis increases driving stability and provides superior aerodynamics.

Assistance systems

Your Hymermobil B-Class MasterLine is available with various high-tech assistance systems as standard to unburden you during your journey. These include Crosswind Assist, Active Distance Assist (DISTRONIC), Active Brake Assist, ESP, TCS and automatic headlights as standard.

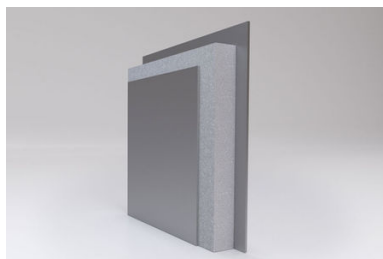

HYMER LED headlights

The new, specially developed HYMER headlights include modern LED fibre optics with integrated LED daytime running light and indicators to ensure optimum visibility day and night. This ensures perfect illumination in traffic, making you even safer as a result.

Stylish visor-like appearance with perfect all-round view

The ultra-panoramic windscreen guarantees you'll have a perfect view of your surroundings and the traffic, as well as the best possible view outside. The visor-like appearance provides the vehicle with a particularly elegant and stylish look.

Optimal insulation thanks to PUAL technology

The PUAL-foamed walls with aluminium inner and outer skin are an important component of the vehicle's durable high-tech bodywork. The excellent insulation of the closed-cell PU foam guarantees pleasant temperatures throughout the year and low gas consumption in winter.

Level underbody

The completely level underbody improves the vehicle's aerodynamics, thereby minimising both fuel consumption and noise levels.

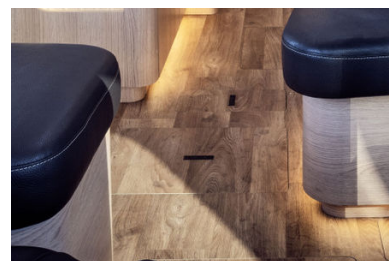

### Rear light moulding

The beautifully shaped rear portion of the new Hymermobil B-Class MasterLine is characterised by the reengineered rear light moulding with self-supporting garage casing in a sporty diffuser design. The multifunctional rear lights include LED hybrid technology and a signature design featuring the three bars of the HYMER logo.

### Mercedes-Benz Sprinter chassis cowl

The high-performance Mercedes-Benz Sprinter chassis cowl is the powerful heart of the vehicle – with 143 hp as standard for high-torque acceleration and optimal power transmission.

### Level living area floor

The living area floor in the Hymermobil B-Class ModernComfort is level throughout the vehicle and therefore free from tripping hazards.

### Through-loading compartment and thermal compartments in the double floor

Numerous heated cellar compartments inside the double floor provide additional storage space that is protected from both the heat and cold. Thanks to the spacious through-loading compartment, even bulky items can be transported with ease.

### Concertina cab blinds

The standard concertina cab blinds made from a premium pleated fabric protect your motorhome from prying eyes and excessive sunlight in summer.

### Natural light

The large HYMER panoramic roof vent in the living area of the Hymermobil B-Class MasterLine lets in plenty of daylight to create a pleasant, natural ambience in the motorhome's interior. When it gets dark, uniform lighting is provided by the integrated LED spotlights.

### GRP garage casing and double-sided garage access

The self-supporting GRP garage casing provides even more

### Multifunctional comfort

The height and angle-adjustable swivel driver's cabin seats are fully upholstered in the same

### Comfortable front berth

The fold-down bed above the cab also offers maximum freedom of movement and

ground clearance, has a capacity of more than 3,800 litres and can bear loads of up to 350 kg as standard – 450 kg is available as an option. The rear garage is equipped with two large garage doors as standard – one each on the left and right side in the direction of travel.

Versatile table

For additional flexibility, the luxury table in the Hymermobil B-Class MasterLine can be rotated 360° and adjusted both horizontally and lengthways as required.

fabric design as the living area. Their exceptional seating comfort and tiltable arm rests make them ideal for settling down to watch TV and for relaxed driving.

Energy-saving LEDs

The interior lighting throughout the motorhome features modern LED technology as standard. This cuts energy consumption by 75% and gives you hours of extra battery life. Since LEDs don't get hot, this also improves fire and accident safety.

headroom. It offers a comfortable sleeping space extending across the entire width of 1.45 metres – even in the front part of the vehicle.

High-capacity water tank

The fresh water capacity is an impressive 180 litres and the waste water tank holds 150 litres – for more convenience and greater self-sufficiency. The tanks are protected inside the insulated and heated double floor, and can be conveniently accessed from inside the vehicle.

New refrigerator generation

The 153-litre Jumbo refrigerator keeps your food safe and cool and opens on both sides thanks to the new fridge door with double hinge.

Four-level lighting concept

Rather than dividing the living area into separate room elements, the lighting concept creates a spatial flow that is cleverly enhanced through appropriate illumination. This is ensured by the multi-level ambient lighting and plinth lighting, which makes the interior appear roomier and more spacious than ever.

Servo soft-touch closing mechanisms and larder unit

All kitchen drawers are equipped with roller bearings for ultra-smooth action. They feature a high-quality Servo soft-touch closing mechanism and one-handed push-locks that prevent the drawers from opening and rattling when the vehicle is on the move. Bottles of oil fit perfectly into the larder unit.

Electric waste water valve

The electric waste water tank drainage with dashboard switch lets you empty the waste water tank via radio control - without getting your hands dirty.

Wide-angle wing mirrors

The new wide-angle wing mirrors ensure excellent rear visibility without restricting the view diagonally ahead.

"Perfect Close" technology

The "Perfect Close" technology with splash water seals on all the doors and flaps provides a reliable seal and prevents freezing in winter.

Lamps with USB port in the fold-down bed area

To ensure maximum all-round comfort, the fold-down bed area includes modern lamps with USB ports as standard.

Duo-Core upholstery

The Duo-Core upholstery concept with the LoungeComfort system protects your back with two different types of foam and provides luxurious comfort while driving or simply enjoying your breakfast.

## Chassis

Mercedes-Benz Sprinter 4.43 t - 414 CDI - 105 KW/143 HP - Euro 6c Gr. III WLTP incl. Eco Start/Stop

## Basis

16" Original full wheel cover

Comfort suspension chassis

Low-frame chassis with through-loading feature

Mud flaps, front and rear axle

LED Daytime running light and LED indicator integrated in HYMER headlights

SLC Chassis (Super Light Chassis / Super lightweight chassis)

Keyless Start (start-stop button for comfortable engine start)

Exterior mirrors suspended, in vehicle colour, electrically heated and adjustable, incl. wide-angle mirror

22 l AdBlue tank

Cup holder driver and passenger seat

ABS (Anti-lock Brake System) / ASR (Anti-Slip Control) / EBV (Electric Brake Force Distribution) and ESP (Electric Stability Program)

Reinforced alternator

Mercedes-Benz noise reduction: Engine compartment insulation and underbody panelling

Automatic driving light control

Active Brake Assist

Driver and passenger airbag

92 l fuel tank

Chrome version front (grill / fog light cover)

6-speed transmission

## **Body**

Rooflight (clear glass) above rear bed(s) with blackout blind and mosquito net, 40 x 40 cm

Rooflight (frosted glass) in bathroom with blackout blind and mosquito net, 40 x 40 cm

Rooflight (frosted glass) above separate shower with blackout blind and mosquito net, 40 x 40 cm

Insulated GRP rear panel with integrated third brake light and design elements

Optimal insulation thanks to the proven PUAL construction with foamed walls and roof (34 mm wall and roof thickness) and framed windows

Premium high-tech construction aluminum / aluminum PUAL sandwich for optimal insulation (fully glued without cold bridges, 100% wood-free)

Glossy grill with chrome trim

Electric entrance step, 1-step

Real glass side windows, superimposed

Rooflight above pull-down bed with blackout blind and mosquito net, 40 x 40 cm

Heated double floor incl. cellar compartments

Opening windows with blackout blind and mosquito net, LH and RH side, rear

Exclusive HYMER Multifunctional rear lights in LED-Hybrid technology

GRP lightweight floor with XPS insulation

Large through-loading compartment with access from the outside on both sides incl. extra deep basement compartment and access from the inside

Large garage doors, LH and RH side

GRP roof coating (GRP roof coating doesn't match the exterior colour. The quality of the surface of the GRP coating doesn't correspond the painted outer skin)

Garage load up to 350 kg (optional 450 kg). Please note the axle load.

Cab blinds made of high-quality pleated fabric

65 cm Maxi Comfort habitation door with inner shell, 2-way lock, window with blackout blind and waste bin

Smooth aluminium skin, Colour: Carrara white

Opening window incl. blackout blind and mosquito net, LH side, rear

Cab door with electric power windows and entry lighting

Panoramic rooflight in living room, double-glazed with LED-lighting, 80 x 50 cm

## **Outfitting**

Cab seats, upholstered in living area fabric, swivelling, height- and tilt adjustable with 2 armrests

Comfort L-shaped seating group with Lounge cushions and 2 integrated 3-point belts

Luxury table: 360° rotatable, longitudinally and transversably displaceable (only in combination with L-shaped seating)

Mosquito net on habitation door

## **Fabrics & Furniture finishes**

Fabric combination: Colombo, Cusco, Delfi, Janeiro, Kitami, Milos or Phoenix

Furniture finish: Grand Oak

## **Living and bedroom + lighting**

Sleeping Comfort system with cup-slatted bed frame and Multizone cold foam mattress(es) (for pull-down bed)

LED worktop lighting

Function integration into furniture elements

Modern, linear interior design

Optimal space and generous sense of space

Complete LED interior lighting

Night lighting with toggle switch

Lighting dimmable (via push button)

Sleeping system with cup-slatted bed frame for front bed

Ambient lighting

Pull-down bed, manual

## **Kitchen**

Servo-Soft close in the kitchen

Chopping board

Large cooker with glass cover and front panel operation

Extra deep sink with tight-fitting chopping board and high water tap

Extra wide, free distinguishable kitchen drawers

Structure wall panelling serving also as splash guard

153 l Jumbo fridge

Pantry

## **Bathroom**

## **Installation & Technology**

LCD keypad for heating incl. iNet ready

Warm water heating (incl. booster in the cab) incl. dashboard convectors

Reinforced battery, 12 V, 95 Ah AGM

20/180 l fresh water tank, insulated and heated

Warm water garage floor heating

150 l waste water tank, insulated and heated

Extra deep gas bottle compartment for easy gas bottle change

Electric waste water drain with dashboard switch

## **Multimedia**

Radio / TV pre-installation incl. 12 V and 230 V socket, 2 speakers in the cab, the front bed as well as the rear bedroom, radio and DVB-T2 antenna

24" TV bracket in the living room, manual

Please note, that for the UK the offered models and equipment components can differ from the descriptions

and information given here. The illustrations are for example purposes only, and may feature optional extras, accessories and vehicle decorations which are not supplied as standard. Optional extras are included in the current price list and available at the extra cost indicated. We reserve the right to modify the equipment or make product improvements not shown in the photos during the lifecycle of the model ranges. We cannot accept any liability for content errors and modifications.

## Optional extras

For economical and smooth driving

The optional, fuel-efficient 9G-TRONIC 9-speed automatic transmission including hold function makes driving a sprightly experience with optimal smooth running and low fuel consumption

Exquisite work surface

The new solid surface worktop offers generous storage and work space, so you can conjure up a gourmet meal with minimal effort.

Hybrid cooker

The cooker combines gas and induction hobs to make cooking even easier.

HYMER Smart Battery System

The HYMER Smart Battery System enables you to drastically increase the period of self-sufficiency of your vehicle. This results in the vehicle being able to stand without a power connection for almost 10 days. This is ideal for customers who enjoy a high degree of independence. It also extends the life of the entire system and reduces operating costs in the long run.

HYMER energy management system

Modern LED technology combined with an intelligent energy management system reduces power consumption by up to 75%. The system detects how much power the vehicle is currently using and automatically switches from the starter to the living area battery, and vice versa. This increases the life of the installed batteries.

Features for the main entry door

The generous 65 cm entrance door, which blends harmoniously into the interior design of the living area, comes with optional exclusive features, such as a closing aid, RFID access and central locking system.

Please note, that for the UK the offered models and equipment components can differ from the descriptions and information given here.
