

HYMER

HYMER Van

The semi-integrated motorhome that makes an ideal second car.

HYMER Van

Highlights

Compact competence in all areas.

HYMER is credited within the motorhome industry with the invention of the van. The **HYMER Van** answers the increased demand for an ultra-compact **semi-integrated vehicle** which can fulfil the dual function of **motorhome** and second car. With an overall length of max. 5.99 metres, it is light and very agile, making it easy to manoeuvre in traffic. What's more, you can park it virtually anywhere. But compactness doesn't mean compromising on familiar comforts: indeed, the **HYMER Van** comes optimally equipped with bathroom, shower, bed and garage.

HYMER Van - motorhome

Characteristics

Weight: 3.500 - 3.850 kg

Length: 5,45 m - 5,99 m

Width: 2,22 m

HYMER Van

Exterior view & stowage compartments

HYMER Van - motorhome

With a compact overall length of just 5.45 m, the **semi-integrated HYMER Van 314** is the smallest and best equipped **motorhome** in the world.

Exterior colours

The HYMER Van is available in five exterior colours. The standard version features a white cab

Light, slender and manoeuvrable

With an overall length of max. 5.99 metres, the HYMER Van is especially light and very agile, making it easy to manoeuvre in traffic.

Stowage compartments

Garage

Despite its compact size, the garage of the **HYMER Van** has **space** for a bicycle or an array of other camping accessories.

Locker door

The optional garage flap in the rear wall provides even better access to the garage of the HYMER Van 314.

HYMER Van

Living room

Functional interior concepts for your dream trip.

Cosy living area

The interior of the HYMER Van: pictured here is the standard Pico fabric design combined with the Trentino Pear Wood furniture finish. The seating area accommodates up to four people. The table can be extended thanks to a swivel-mounted extension board, allowing it to be effortlessly accessed from the passenger's seat as well.

Ample storage space

Installed below the seating area – pictured here in the standard Trentino Pear Wood finish and Santorin fabric design – is an extremely spacious storage drawer.

Plenty of daylight

For a light and airy living area, the HYMER Van is equipped with a lift/tilt rooflight as standard, which ensures good ventilation at all times. A double roller blind is integrated in the rooflight frame to darken the interior and keep out insects.

At a glance

The clear-view control panel – visible at all times from the cosy seating area in the HYMER Van – allows you to keep an eye on the vehicle's current supply status and make individual temperature adjustments via the central, iNet-ready LCD control panel with timer.

Living room

The **HYMER Van 314** concentrates a lounge, kitchen, sleeping quarters and bathroom into a minimum of space.

HYMER Van

Layouts & Data

HYMER Van

Standard Equipment

Ideal undercarriage

The specially developed lightweight frame with independent suspension forms the perfect basis for the motorhome body. Its optimally positioned wheelbase ensures equal weight distribution, even when the vehicle is fully loaded.

Well-ventilated

The living area in the HYMER Van is equipped with a lift/tilt rooflight as standard, which ensures good ventilation at all times. A double roller blind is integrated in the rooflight frame to darken the interior and keep out insects.

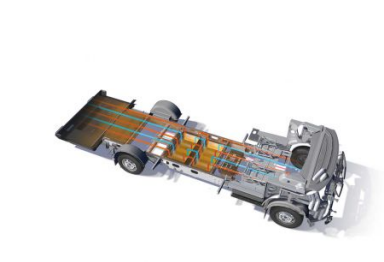

Protection from below

The indestructible GRP underbody gives the vehicles perfect protection against weather damage. Stone damage, grit and dirt are likewise kept at bay - a solid and lasting foundation for the entire service life of your motorhome.

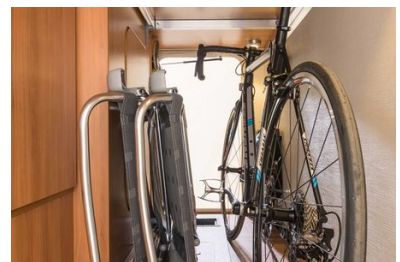

Easy access

The electric step at the entrance to the living area of the HYMER Van ensures easy access.

The vehicle for winter sports fans

Our motorhomes offer a hassle-free all-round package for winter sports enthusiasts: insulated service installations and tanks, heated dashboard and exterior locker compartments, winter air vents in the windows and seating areas and a warm air supply under the cab seats. As for the exterior, the GRP floor provides effective protection against grit and salt (depending on model).

Double-sided garage access

The garage comes with full-height doors on both sides of the rear of the HYMER Van as standard. In this way it can be loaded conveniently from both sides and luggage remains accessible from the outside at all times. The garage has a loading capacity of 350 kg as standard - there's even the option of upgrading to 450 kg.

Cosy warmth

Installed as standard, the 4,000 W hot-air heating system with hot water boiler effortlessly generates enough warmth to ensure a cosy temperature throughout the interior of the HYMER Van motorhome, even when it's well below freezing outside.

Energy-saving LEDs

The interior lighting throughout the vehicle features LED technology as standard. This cuts energy consumption by 3/4 and gives you hours of extra battery life. Since LEDs don't get hot, this also improves fire and accident safety.

No thermal bridges

The high-quality framed windows in the HYMER Van are fitted with acrylic double glazing for optimal thermal insulation. The aluminium frame is lightweight and sturdy and has an insulating layer to protect against thermal bridging. The windows are also fitted with a blackout blind and mosquito netting.

Handy multi-taskers

The height and angle-adjustable swivel lounge seats in the cab are upholstered in the same fabric as the living area. The high seating comfort of the Aguti Ergoflex pilot seats is ideal for settling down to watch TV and for relaxed driving.

The feel-good factor

Individual temperature adjustments and the boost function for fast hot water supply and room heating in the HYMER Van can be controlled via the central LCD control panel with timer.

Secure storage

All kitchen drawers are equipped with ball bearings for a smooth action and feature a Servo softtouch closing mechanism and fastenings to prevent them from coming open accidentally and rattling while the vehicle is in motion.

Sleeping comfort

All beds are equipped with high-quality multi-zone cold foam mattresses that provide the right support for all areas of the body. Breathable mattress toppers in the rear section ensure good ventilation.

Exterior lighting

The high-power LED awning light with rain deflector is also part of the standard package. It lights up a wide area outside the entrance door so you can enter the vehicle safely in the dark.

HYMER Van

Optional extras

Robust coating

Corrosion, cold and material fatigue don't stand a chance in our motorhomes thanks to the GRP roof coating, floor and other components. Protection against grit and salt is likewise guaranteed (depending on model).

Restful sleep

The HYMER comfort sleeping system with high-quality disk-spring bed frames maximises the benefits of the multi-zone cold foam mattresses. Each area of the body is supported with the ideal counter-pressure for snug and restful sleep.
