3.5-TON CLASS

For a motorhome weighing up to 3.5 t, you are good to go with a Class B driver's licence. The vehicle is treated just like a car when it comes to speed limits, traffic regulations, tolls and vehicle tax.

SLC CHASSIS

Our internally developed super-light chassis is specially adapted to your motorhome's specifications. The completely level underbody improves the vehicle's aerodynamics and reduces noise levels. The raised, heated double floor offers extra storage space and can be accessed from both sides.

Contact your HYMER dealer or refer to our price list for more information about equipment and prices.
