With its major overhaul of the camper van model range on a Fiat chassis, Hymer is catering to modern caravanning demands and setting new standards where interior design, lighting, digitalisation, self-sufficiency and sleeping comfort are concerned. It's not just the design and furnishings that are getting an update, but the installations and bodywork too.

Main highlights:

- New interior design with two style collections including the use of real materials, such as cork, ceramics and solid-surface materials
- Clever features: premium, thermally-insulating and sound-absorbing felt lining in the rear area, multifunctional, wood-effect wall or the magnetic vanity mirror in the bathroom
- Insulated and heated under-floor fresh water tank
- Under-floor battery tray for up to four batteries
- Skyview window in the cab regardless of the roof type selected
- Smart controls using the Hymer Connect app
- New four-level lighting concept: ambient lighting throughout the vehicle, touch-operated reading lights above the driver and passenger seats and an optional lighting pack including an innovative pendant lamp
- Travel lounge seating area with tilt adjustment
- New lithium battery system
- Improved weight distribution and vehicle centre of gravity as well as lots of extra storage space in the rear area due to the under-floor installation of the battery box as well as the fresh water and waste water tank
- New, innovative, comfort sleeping system

New additions to the standard equipment (selection):

- Cab roof lining with a homely felt look
- Fold-out steps to the bed including a storage space partition
- Ivy Green and Pearl Grey furniture finish
- Indiana fabric combination
- Multifunctional wall for the seating area and kitchen
- Cooker/sink combination with glass lid and premium single lever mixer tap
- 70-litre compressor refrigerator with double hinge for opening in both directions (Ayers Rock, Yosemite)
- Compact bathroom with louvre door (Ayers Rock, Grand Canyon, Yosemite)
- Vario bathroom with swivelling wall (Yellowstone)
- Touch-operated, dimmable LED lighting
- Touch-operated, LED reading lights (in the living area)
- Patented and insulated under-floor battery tray including 95 Ah living area battery
- Rear bed featuring thermal conduction design for optimum heat distribution
- 95-litre waste water tank (under-floor installation)
- Electric waste water tank drainage
- 110-litre fresh water tank (under-floor installation) with service hatch in the upper floor
- Insulated and heated fresh water and waste water tank
- 7-inch touchscreen for convenient control and monitoring of important vehicle features and components
