

BLACK ON TRACK: THE NEW EDITION OF THE HYMER B- CLASS MODERNCOMFORT T AND I

- The new BlackLine edition combines the advantages of the B-Class ModernComfort (B-MC) with stylish design accents and a fantastic range of ready-to-hit-the-road features.
- From the rims to the chassis, the exterior is dominated by elegant black, while trendy concrete-effect flooring gives the interior a casual yet urban feel.
- Equipped with the Hymer Connect sensor package for the very first time, the Hymer B-MC supplies useful information to the Hymer Connect app and on-board display, including the gas level or temperature.

Düsseldorf/Bad Waldsee, 30. 08. 2024 – When it comes to comfort, design and innovation, Hymer has consolidated all of its expertise in the Hymer B-Class ModernComfort on a Mercedes-Benz Sprinter chassis. With the new BlackLine edition for the T and I models, the popular motorhome available in five different layouts has been given a sporty makeover. With black design graphics and detailing in the interior, including trendy concrete-effect flooring as well as a black cab, the special edition model stands out from conventional vehicle designs and has a modern look, whether on the road or parked up at a campsite. The extensive equipment package of the popular basic model has been supplemented with new smart technology, such as the Hymer Connect sensor package.

Special at first sight

If you're a fan of travelling in style, you'll love the tasteful exterior colour scheme of the BlackLine edition. The name says it all – the Super Light Chassis (SLC) with “Obsidian Black” cab really stands out from the silver-coloured bodywork. Black design graphics also give the motorhome a dynamic look. All in black, the 16" rims and awning also blend in perfectly with the colour scheme of the B-MC BlackLine edition. Depending on the selected layout (550/580/600/680/690) for the T and I models, the motorhome measures 699 cm, 719 cm or 739 cm in length.

Get that holiday feeling from the very first second thanks to the ready-to-hit-the-road features and modern comforts

The standard Plus equipment line and Living Comfort package leave nothing to be desired, so you'll feel at ease as soon as you step foot inside the Hymer B-MC BlackLine. The “Premium” equipment line, as well as the “Arctic”, “Winter” and “Self-sufficiency” packages are also available. With a clever storage space concept, an elegant kitchen, a spacious sleeping area and a luxurious bathroom, you can hit the road right away. The details inside the black special edition make the difference: the modern, concrete-effect flooring brings urban living to any destination. The bright “Grand Oak” furniture finish and matching fabric combinations make the mobile home feel warm and cosy. Equipped with a multi-level lighting system with individual light controls as well as atmospheric plinth lighting, you can set the perfect mood for cooking, reading or relaxing at the end of the day. A 32" Smart LED TV with integrated speakers, DVD drive and HYMER Smart Multimedia System will keep everyone entertained. The comfort L-shaped seating area with lowerable table can be converted into an extra bed in no time at all and is therefore an addition to the rear bed.

Sensor upgrade for improved connectivity

The new B-MC BlackLine has been equipped with the HYMER Connect sensor package for the very first time to make it easier to use the digital features. A gas level sensor, temperature sensor and two contact sensors supply useful vehicle data to the Hymer Connect app and on-board display. Newcomers to camping in particular will benefit from the detailed digital display and how intuitive the app is to use.

The new Hymer B-Class ModernComfort BlackLine T and I will be available from dealers from September.

About the Hymer GmbH & Co. KG

Since its foundation in 1957, Hymer has been a household name in motorhomes and caravans “made in Germany”. The company is not only notable for its long tradition and passion for motorhoming, but is also one of the leading manufacturers in the premium sector thanks to its high standards of quality and consistent record of innovation.
