

AHEAD BY A LENGTH: THE HYMER GRAND CANYON S 700

- With a length of seven metres, the latest model in the popular Grand Canyon model range is more spacious, making everyday travel more comfortable.
- Relaxing at night, active during the day: a swivel bathroom as well as longitudinal single beds almost two metres in length are what set the space-creating interior design apart.
- Based on the features found in the Grand Canyon S, the 700 model boasts self-sufficiency features, connectivity and a modern interior.

Düsseldorf/Bad Waldsee, 30. 08. 2024 – For those who celebrate van life but don't want to miss out on maximum comfort, Hymer now presents the Grand Canyon S 700. Due to its vehicle length of just under seven metres, the big brother of the Grand Canyon S comes with an uncompromising amount of space that opens up new possibilities for intelligent interior design. Two longitudinal rather than transverse single beds ensure that the bodywork is hardly any wider than that of a car. A fully-fledged swivel bathroom as well as plenty of storage space in the separate wardrobe next to the bed are the perfect additions to the spacious interior. The Grand Canyon S 700 is the perfect travel companion thanks to its modern interior and wide range of self-sufficiency features and equipment.

An uncompromising amount of space in a cosy environment

As the “big brother” of the popular Grand Canyon S, the 700 model also meets the latest standards in interior design, digitalisation and self-sufficiency. The almost two-metre-long longitudinal single beds are a real highlight of this model. Equipped with the innovative Lattoflex comfort sleeping system – consisting of roll-up mattresses with disc springs – the two single beds offer an extra touch of relaxation. Day or night, travellers will feel right at home in the two different style collections: “Ivy Green” with its homely felt accents and “Pearl Grey” with its welcoming oak finish. Both feature a cosy seating area and a four-level lighting concept, which creates a pleasant environment throughout the vehicle – it can also be adapted by adjusting the light temperature. The fully-fledged swivel bathroom in the Grand Canyon S 700, which also features a premium folding washbasin, ensures that perfect use is made of the space in this area.

Taking independence to a whole new level

With a large 93-litre fuel tank and a payload of up to 940 kg, there’s nothing to stop you from going on longer trips or making detours on the spur of the moment. A diesel-powered hot-air heating system with boiler reduces the requirement for gas, while the energy-saving, 90-litre compressor refrigerator operated with 12 volts and the 80 Ah lithium battery system increase self-sufficiency on the road. Using the Hymer Connect app, travellers can view the exact battery level and other important installation data at any time, and also intuitively control a variety of vehicle features.

The Hymer Grand Canyon S 700 is available from dealers now – with four-wheel drive as well as other components and features on request, such as a pop-top roof, an electric off-road step or the HYMER premium sound system.

About the Hymer GmbH & Co. KG

Since its foundation in 1957, Hymer has been a household name in motorhomes and caravans “made in Germany”. The company is not only notable for its long tradition and passion for motorhoming, but is also one of the leading manufacturers in the premium sector thanks to its high standards of quality and consistent record of innovation. Hymer GmbH & Co. KG markets its products under the four brands Hymer Motor Caravans, Hymer Camper Vans, Hymer Original Parts and Eriba Caravans. Hymer GmbH & Co. KG is part of the Erwin Hymer Group.
