

Statement in Black: The new Hymer B-Class MasterLine BlackLine

Design with Character. Technology with Vision. Comfort without Compromise.

- **Design that makes an impression:** The new special edition of the Hymer B-Class MasterLine combines iconic exterior with technical sovereignty – powerful, elegant, and consistent down to the last detail.
- **Premium-Level Homeliness:** With reinterpreted materials, modern colours, and intelligent comfort solutions, the interior becomes a stylish retreat.
- **Technology for maximum freedom:** The Hymer Connect sensor package, solar power, and a permanently installed 5G router create autonomy, digital control, and complete independence on the go.
- **Style diversity in two variants:** The new BlackLine is available both as an integrated (I) and semi-integrated (T) model – for maximum freedom in form and function.

Bad Waldsee, August 29, 2025 – With the new Hymer B-Class MasterLine BlackLine (B-ML), Hymer presents a motorhome that redefines premium ambition, style, and smart technology. As a striking special edition of Hymer's flagship, the BlackLine embodies timeless elegance, uncompromising comfort, and equipment that sets standards.

"With the BlackLine edition, we give our B-Class MasterLine a new visual identity – bold, confident, and functionally well-thought-out," says Christian Bauer, Chairman of Hymer Management.

Impressive Exterior – Strong, Reduced, Noble

At first glance, the Hymer B-Class MasterLine BlackLine makes it clear what it stands for: style and sovereignty. The driver's cab in Obsidian Black (T) meets the body in elegant Crystal Silver Metallic – a contrasting colour combination that makes the vehicle appear powerful yet elegant. Black design elements like side mirrors (I), awning, and the special BlackLine decal underline the exclusive character of the edition. The lines remain clear and reduced, resulting in an overall timeless aesthetic.

Homely Interior Design with Vision

The interior of the BlackLine impresses with a modern, stylish atmosphere. The newly designed floor in subtle concrete look meets the warm Grand Oak furniture decor, creating a homely, urban feel. The integrated 4-level lighting system creates a well-thought-out lighting concept that meets both practical requirements and aesthetic standards. High-quality materials and the newly designed kitchen and roof storage cabinet design ensure an elegant appearance.

Functionally, the interior also presents itself at the highest level: An electric roller shutter in the front area, a precise water level indicator with 1-percent steps, and a modern equipped kitchen with generous storage space and thoughtful lighting staging make traveling not only comfortable but stylish.

Technology that Changes Travel

The BlackLine takes a decisive step forward in terms of digitization and autonomy. Equipped as standard with the Hymer Connect App and a comprehensive sensor package, central vehicle functions can be intuitively monitored and controlled – from temperature to lighting mood to tank levels. Intelligent details such as gas, contact, or temperature sensors provide additional safety and comfort.

For maximum independence while traveling, the BlackLine is also equipped with three powerful solar panel modules including integration into the digital architecture and a permanently installed 5G router. This way, one remains connected even away from the classic infrastructure – digitally, securely, and freely.

The new Hymer B-Class MasterLine BlackLine will be available from **September 2025** in the following layouts:

Semi-integrated Variant (T):

B-ML T 780 BlackLine

Integrated Variant (I):

B-ML I 780 BlackLine

B-ML I 790 BlackLine

B-ML I 880 BlackLine

B-ML I 890 BlackLine

Thus, travelers have four integrated and one semi-integrated layout to choose from – all with the characteristic BlackLine appearance and extensive edition equipment.

The price of the Hymer B-Class MasterLine BlackLine starts at a German base price of 154,500 Euros (T) and 180,500 Euros (I).
